- Diploma in Advance Computing from C-DAC-ACTS, Pune with 69.29% in 2012

TECHNICAL SKILL:

- **Language:** Core Java
- **Database Technology:** SQL, Oracle 11g
- **Enterprise API:** JSP 2.1, Servlet 3.0
- **Web Application Frameworks:** Hibernate 3.0, Spring 2.5, Spring Batch
- **Web Services:** REST
- **Application Tools:** Eclipse Mars, IntelliJ, Swagger, Docker
- **Log Utility:** Log4j
- **Application Servers:** WebLogic 10.3. 6, Apache Tomcat 8
- **Build Tools:** Maven 3.3.9
- **Version Control:** GIT, GitHub.
- **Oracle Technology:** Oracle Coherence
- **Testing Framework:** JUnit, JMockito

MAJOR WORK:

- Optimized legacy code. It increases performance.
- Completed OWASP Training Program and creating secure coding training by Worldpay Academy.

WORK EXPERIENCE:

1. EMBOSS to WPG Migration (Duration: 12 months from March 2016 to present)

Technologies: Apache Tomcat 8, REST, Jersey, IntelliJ, Maven, Swagger, Docker, Sonar Qube, GitHub

Role: Senior Software Developer

Design Patterns: Data Access Object, MVC, Adaptor pattern, Singleton pattern, Builder pattern

Contribution: Automated whole project by using Docker. Applied Google check style in code.

Developed backend web services and done proof of concept on Spring Batch and TOME. Code reviewer. Developed API contracts by using Swagger.

2. My Business Dashboard (Duration: 1.7 years from Jul 2014 - Feb 2016)

Technologies: JDBC, Restful Web Service, Jersey, Weblogic 10.3.6, ETL, Maven, Oracle Coherence, GitHub, Oracle Documaker

Role: Senior Software Developer

Design Patterns: Data Access Object, Business delegate pattern

Contribution: Prepared low level design document and estimated work. Threat modeling.

Developed module which used for caching. Developed back end web services. Code reviewer.

3. World pay Zinc (Duration: 1.11 years from Apr 2012 - Mar 2014)

Technologies: Spring 2.5, Hibernate 3.0, Axis 1.4, JSP 2.1

Role: Software Developer

Design Patterns: Data Access Object, MVC, Adaptor pattern

Contribution: Developed new modules which upload images and stores images in database.

Internationalization of portal. Resolved major issue like session leaking which degrades system and portal response time.

4. Loyalty Mobile Application (Duration: 1 month from May 2014 - Jun 2014)

Technologies: Hibernate 3.0, Axis 2.0, EJB 3.1, SOAP

Role: Senior Software Developer

Contribution: Developed security module which secures all incoming request by validating all parameters. Developed scheduled job (It run on server startup and delete unwanted data from database).

PERSONAL DETAILS:

- **Status:** Single
- **Date of Birth:** 11 July 1990
- **Father's Name:** Arvind Kumar Pandey
- **Mother's Name:** Arti Pandey
- **Nationality:** Indian
- **Passport Number:** N0441665
